**Subject:** Amendment to Import Tolerance of Chlormequat Chloride in or on oat grains

Hello Heather,

I submitted my amendment to the import tolerance of chlormequat chloride on oats through CDX today. When I first spoke to Lindsay Roe about this petition, she asked me to include the "Magnitude of the Residue of Chlormequat Chloride in Oats" that was submitted as part of our Section 3 and reference the MIRD number that was assigned to the study. I tried doing this through CDX, but got an error because I cannot list a MIRD number that is already assigned to a study. To include the study, I would have had to create a new MIRD number, which would mean the study would have two MIRDs. I spoke with Banza Djapao and he told me to remove the study from the packet and reference the MIRD in my cover letter. This is what I have done. Please let me know if you have questions or concerns.

Thank you,  
Jessica
